

Annuals/Tende

Abutilon 'Dwarf Red'	9	sun/pt.shade
Really a red orange, but nonetheless a richly colored floriferous flowering maple which is quite compact at 15-18". We like how it tolerates light frosts and continues to dazzle into November.		
	4"	\$10.00

Abutilon pictum 'Gold Dust'	8	pt.shade
Mottled gold and green foliage on upright bushy plants, with salmon-orange flowers all year long. A great container plant!		
	4"	\$9.00

Abutilon 'Snowfall'	9	sun/pt.shade
Pure white bells throughout the year, on bushy upright growing plants. Very bridal like appearance. Pinvh bank regularly for more compact habit.		
	4"	\$10.00

Abutilon 'Victorian Lady'	9	sun/pt. shade
This is the quite rare double form of flowering maple with pink flowers that resemble just opening old-fashioned rosebuds. It is difficult to propagate and so we must limit one per customer. Upright habit.		
	4"	\$12.00

Abutilon x 'Souvenir de Bonn'	8	pt.sh/shade
Striking white edged maple leaves, salmon bell-flowers veined with crimson and a sturdy upright habit make this a great choice for large standards.		
	4"	\$10.00

Aeonium arboreum 'Scwarzkopf'	10	sun
Shiny almost black fleshy leaved rosettes are born on sturdy stems that become tree-like with age. A must have specimen if you collect succulents.		
	4"	\$9.00

Alternanthera 'Gail's Choice'	8	sun/pt shade
Dark maroon 1" wide leaves on sprawling stems and a vigorous habit distinguish this form of "Calico Plant". Great in pots, we also combined this with Lysimachia nummularia aurea (Golden Creeping Jenny) in our low lying wet soil are for an all summer show.		
	4"	\$8.00

Annuals/Tende

Astelia banksii compact form	9-10	sun
Silver Sword is the common name for this attractive compact foliage plant. Plant reaches heights of 15", and over time will bush out to about 15" wide. It is drought tolerant and makes a stunning architectural statement in containers. Is purple in color		
	qt.	\$15.00

Centaurea gymnocarpa 'Colchester Wh	7	sun
Valued for it's silver white deeply filigreed foliage, although it occasionally develops lavender bachelor button blossoms . Prefers heat and drought.		
	qt	\$10.00

Cerinthe major purpurescens	A	sun
Kiwi Flower. A delightful late spring-early summer bloomer with blue-grey foliage and dangling Bluebell like flowers in an exquisite shade of blue and smoky lavender. Self sows where happy (well-drained soil) for a replay in late summer -fall.		
	4"	\$8.00

Clitoria ternata	10	sun
A tender vine adorned exquisite dark blue pea-like flowers with a remarkable shape, hence the Latin name. Will vine to 4-6'.		
	4"	\$9.00

Cornus kousa 'Wolf Eyes'	5	sun/pt shade
A stunning variegated Japanese dogwood, with white blossoms born along the stems in June and early July, which are followed by interesting red fruit in the fall. A choice small tree 20-25'. Does not like mid-day sun.		
	2 gal	\$40.00

Cosmos 'Chocomocha'		
A compact floriferous selection of Chocolate Cosmos, with intriguing, chocolate purple flowers that do indeed smell like cocoa. Plants make great container subjects, gros to 18" x18", and the tuberous roots can be stored like dahlia		
	qt.	\$10.00

Cuphea 'David Verity'	10	sun/pt.shade
Tubular orange "cigarette" flowers edged with white in profusion on a compact bushy plant. Consistently strong performer despite weather conditions, continuing into November. 2' x 2'		
	4"	\$8.00

Annuals/Tende

Cuphea hyssopifolia aurea	10	sun/pt.shade
Golden leaved "Mexican Heather" is a cute little thing with a non-stop display of small lavender tubular flowers that contrast with the tiny gold-green foliage. 14".		
	4"	\$8.00

Cuphea micropetala	8	un/pt shade
A bolder Cuphea for adding late summer interest. Tubular flowers are born on erect to arching 2' stems, and resemble candy corn in their coloring--orange, creamy yellow and white. Blooms Aug-November.		
	qt	\$10.00

Cynara cardunculus	6	sun
Cardoon. Great arching silver filigreed foliage with stout stalks bearing beautiful lavender blue thistle blossoms. Spring shoots are edible and a delicacy. hardy in Zone 6 if given good drainage and a winter mulch.		
	qt.	\$10.00

Cyperus albostratus variegatus	9-10	pt.shade
A small variegated Papyrus which makes an exceptional container subject with other moisture loving plants, as well as an addition to a water garden. 2-3 ' tall.		
	qt	\$10.00

Dichondra argentea	7-	sun
A shimmering silver plant, with scalloped leaves on trailing stems, an excellent alternative for Helichrysum in containers.		
	4	\$8.00

Eucomis 'Oakhurst'	6	sun
Strapping, upright brilliant burgandy foliage and creamy plum pineapple blossoms on 2' stalks in the summer. Prefers a well drained soil that has a nice protect mulch. Does well in containers too if you're worried about losing it over winter.		
	5pt.	\$15.00

Evolvulus glomeratus	8	sun
Deservedly popular, 'Blue Daze' is a low spreading plant with grey-green foliage and nickel-sized true blue morning glory flowers throughout the season. Sun. 8" x 18"		
	4"	\$8.00

Annuals/Tende

Fuchsia triphylla 'Gartenmeister'	8	sun/pt.shade
"Tropical looking" is how this showy long blooming fuchsia is often described and it's a great matchmaker. Red-tinted foliage is a good foil for the tubular orange-red flower clusters. Heat and sun tolerant. 18-24".		
	4"	\$8.00

Gomphrena 'Fireworks'	A	sun
A fun new Globe Amaranth to try in your beds. 1" fireballs of lavender pink quilled petals tipped in gold on sturdy 3-4' branched stems add a spontaneity to garden beds and big pots. Use as a surprise substitute for Verbena bonariensis		
	4"	\$8.00

Lantana montevidensis	8-11	sun
With a simple grace lacking in modern lantana selections and wanting to bloom year round with multi toned lavender flower clusters on wiry trailing stems, this butterfly magnet adds to the summer garden. 1' H spreading plants.		
	4"	\$8.00

Lantana montevidensis alba	8-11	sun
This lantana wants to bloom year round with white flower clusters on wiry trailing stems. Where it is winter hardy, Lantana montevidensis alba will form a low shrub 12-18" tall and up to 5' wide. Butterflies and bees adore it.		
	4"	\$8.00

Mirabilis jalapa 'Orange Crush'	8-10	sun
light orange sweetly scented blooms, is a great addition to your summer lineup of colorful flowers. Blooms open later in the afternoon in time for passing butterflies and stay open into the evening so night-flying moths can get a sip of nectar, too.		
	4"	\$8.00

Oxalis triangularis ssp. triangularis	7	sun/pt.shade
A striking bulbous shamrock with distinctive purple black foliage and wispy white/pink flowers. Great in mixed containers or by itself. 18". Almost hardy in zone 6.		
	4"	\$9.00

Oxalis vulcanicola 'Copper Glow'	9	sun/pt.shade
This vigorous little spreader delights us with chartreuse colored foliage tinted with copper and tiny yellow flowers. Tuck it in containers or at the edges of your garden.		
	4"	\$8.00

annuals/tender

Oxalis vulcanicola 'Zinfandel'	9	sun/pt.shade
Small bronzy-purple foliage is accented by tiny yellow flowers throughout the season. Pairs beautifully with bolder foliage, Zinfandel has a spreading habit, making it useful tucked in beds or spilling from pots.		
	4"	\$8.00

Pelargonium 'Bird Dancer'	9	sun/pt.shade
A Stellar Geranium with attractive rust-banded 'Bird's Foot' type foliage and soft salmon stary flowers borne in clusters on 8" stems.		
	4"	\$9.00

Pelargonium f. 'Attar of Roses'	9	sun/pt.shade
One of the many scented leaf varieties, this form is a favorite for potpourri and perfume. Small white flowers with a full-bodied rose scented foliage.		
	4"	\$9.00

Pelargonium 'Frank Headley'	10	pt.shade
Cream colored leaves centrally marked in gray-green. Flowers are a lovely shade of coral-salmon. 12-15"		
	4"	\$10.00

Pelargonium 'Grossersorten'	10	sun/pt.shade
Salmon-pink flowers accent the very attractive dark green foliage with near black zoning. 15-20"		
	4"	\$10.00

Pelargonium 'Mrs. Henry Cox'	10-12	pt sun/ sun
A tricolor leaved old fashioned geranium with salmon pink flowers in early summer. She may not bloom much once the heat really sets in, but she has colorful foliage with bands of red, dark green and bronze, and edged in bright yellow. Grows 12-15" tall		
	4"	\$10.00

Pelargonium sidoides	9	sun
Our bestseller. One of the subtle but striking species pelargonium with trailing stems clothed with gray foliage and deep wine colored flowers. Prefers a well drained soil and sun.		
	4"	\$9.00

Annuals/Tende

Pelargonium tomentosum	10	sun/pt.shade
Large velvety gray-green leaves deliciously scented with mint make this pelargonium a standout in containers or the border. 2-3'.		
	4"	\$9.00

Pelargonium 'Vancouver Centennial	10	sun/pt.shade
Undeniably eye-catching gold fan-shaped foliage with maroon-russet banding. Forms compact plants with red-orange starry flowers.		
	4"	\$9.00

Phormium 'Sundowner'	8	sun
New growth has bright pink margins and bronze-green centers, overlaid with irregular copper-red markings. Older leaves turn cream and green. Leaves at both stages are often present together, giving a colorful effect. To 5' at maturity.		
	QT	\$20.00

Phormium 'Wings of Gold'	8	sun
Yellow centered foliage striped and edged with green foliage. 2-3' in containers, larger if planted in the ground.		
	QT	\$15.00

Pilea glauca	10	sun/pt.shade
Tiny creeper with pewter colored foliage for pots.		
	4"	\$8.00

Pilea microphylla 'Variegata'	10	sun/pt.shade
Variegated Artillery Fern. A filler plant for dish gardens and troughs, or to delicately accent other container plants with its tiny variegated leaves. 3-4"		
	4"	\$8.00

Plectranthus argentatus	10	sun/pt.shade
This plant makes an impressive specimen with large felted silvery leaves and candelabras of blue coleus-like flowers. For a drought tolerant display, pair with verbena bonariensis.		
	4"	\$8.00

Annuals/Tende

Plectranthus barbatus 'White Rhino'	9-11	PT.SHADE/SHA
A shrubby Plectranthus with lovely multi tone green and white edged leaves. Blue flowers in summer. Grows 3' x 3'. Deer Resistant		
	4"	\$10.00

Plectranthus ciliatus	10	sun/pt.shade
A coleus relative with old gold leaves under sided deep burgundy with burgundy stems. In autumn, lavender flower spikes add a glorious display. Reaches 3' + depending on conditions.		
	4"	\$8.00

Plectranthus 'HI Ho Silver'	9	sun/pt shade
A trailing fuzzy leaved selection, with 2" wide leaves in a pretty shade of silver gray. 10".		
	4"	\$8.00

Plectranthus 'Mona Lavender'	10	sun/pt.shade
New on the tender plant scene is this stunning late summer bloomer, with large lavender flecked blossom on contrasting dark stems. Foliage is a glossy dark green colored burgundy underneath. Can reach larger proportions if you give it lots of room. 18"+.		
	4"	\$8.00

Plectranthus neochilis tricolor fr Gary		pt.shade/shade
A smaller Plectranthus with pale green centered leaves edged in white. The serrated edges show a delicate rim of pink. Leaves are thick and fleshy with tiny hairs.		
	4"	\$9.00

Plumbago auriculata Deep Blue form	10	sun
A lovely tender shrub with deep sky blue flowers resembling border phlox. Blooms on new growth so cut back spent flowers for a continuous display. Shrubby habit. 2-3'.		
	4"	\$9.00

Ruellia brittoniana 'Purple Showers'	7-8	sun/pt.shade
This selection of Mexican Petunia easily reaches 3' with purple tinted stems and narrow dark green leaves. 2" violet purple petunia-like flowers are displayed on dangling stems at the leaf axils. Tolerates moist, boggy as well as average soil conditions.		
	qt	\$9.00

Annuals/Tende

Salvia 'Amistad' PP #23578	8-11	sun
A hybrid of <i>S. guaranitica</i> , it can form imposing 4-5' specimens where it is winter hardy, but for most of us it will grow to 3' in a season. Violet flowers bloom mid-summer to frost. Forms tuberous roots that can be dug and stored.		
	qt	\$10.00

Salvia coccinea 'Brenthurst'	9	sun
A pretty compact Salvia with peachy-pink/ white bicolor blossoms that contrast with dark tinted stems. It blooms all summer and at 2' is compact enough for containers, but is also excellent in display beds.		
	4"	\$8.00

Salvia elegans 'Golden Delicious' ppaf	8	sun/.pt shade
Golden leaved Pineapple Sage. Great for containers or in the garden, the bright yellow-green foliage looks good all season and smells delicious, too. Spires of brilliant red flowers in early fall. Grows 2-3'.		
	qt	\$10.00

Salvia madrensis 'Red Neck Girl'	8-10	sun
a big bold late blooming butter yellow Salvia with purple-red stems. To 7' tall where there is a long growing season.		
	qt	\$10.00

Tradescantia pallida 'Blue Sue'	10	sun/pt.shade
a.k.a. Setcreasea 'Blue Sue'. A pretty form of Wandering Jew with dusky blue gray foliage delicately rimmed with wine. Small lavender pink flowers peep from the leaf axils. 6-8" high with creeping stem		
	4"	\$9.00

Tradescantia pallida 'Giant Purple Hear	9	sun
Wide velvet purrple foliage. Slower growing than 'Purple Heart'		
	4"	\$9.00

Tradescantia pallida 'Pale Puma'	8	sun
Soft purple leaves with wooly silver hairs, on semi upright stems growing in a tight clump. Small white flowers appear in late summer, but grow this for its striking foliage. 10-12".		
	4"	\$9.00

Annuals/Tende

Tradescantia pallida 'Purple Heart'	10	sun/pt.shade
Velvety purple 3-4' slender leaves with occasional lavender-pink flowers held in the leaf axils. A nice foliage accent for mixed containers.		
	4"	\$9.00

Tradescantia Petite Form	8	sun/ pt shade
Tightly congested 1/2-3/4" gray green leaves are covered with wooly hairs. 3-4" tall, slowly spreading to 6-8", or more.		
	4"	\$9.00

Verbena bonariensis	7	sun
A timeless and useful filler plant that self-sows and perks up our garden in late summer and fall. Stiff 3' stems topped with clusters of lavender flowers also delight butterflies.		
	4"	\$8.00

Acorus gramineus 'Oborozuki'	4-10	sun/pt.shade
Very hardy form of Sweet Flag with beautiful bright gold variegated foliage. Grows 10-12" tall, forming dense clumps. Enjoys medium to wet soil.		
	qt.	\$10.00

Acorus gramineus 'Ogon'	6	sun/pt.shade
Creamy yellow foliage irregularly streaked with green forming 10-12" clumps. Situate this dwarf sweet flag in moist soil or in shallow water.		
	qt.	\$10.00

Andropogon gerardii 'Indian Warrior'	3-9	
Big brother to Schizachyrium, it forms upright clumps of narrow green foliage that begins to take on purple, then bronze tones as summer moves toward autumn. Consider this a terrific and colorful alternative to pesky Miscanthus. 4-6'.		
	qt.	\$15.00

Carex elata 'Bowles Golden'	6	pt.shade
This sedge is often described as the one of the best golden grass-like plants, but we should preface that by noting it prefers a soil that stays moist. A very thin band of green edges each blade, but the effect is definitely gold in your garden. 18-24"		
	qt.	\$14.00

grasses/sedges

Carex siderosticha variegata	6	pt.sh/shade
We've had this attractive sedge in our garden for years and continue to find new ways to use it as an accent plant. Spreading clumps of green foliage margined in cream are an attractive foil for hostas and other textures in the shade garden.		
	qt.	\$10.00

Eragrostis elliottii 'Wind Dancer'	6-9	sun
Love Grass. A clump forming narrow grey/blue leaved grass which produces long open panicles of white flower spikelets from July to Sept. 2-3' in flower.		
	qt.	\$12.00

Hakonachloa macra	5	pt.sh/shade
This is the straight green Japanese Forest Grass, and although not flirtatiously variegated, it creates a wonderful calm in the shade garden, with its arching leaves. It might be just what you need to contrast with all those variegated hosta.		
	qt	\$12.00

Hakonachloa macra 'All Gold'	6	pt.shade/shade
Glowing golden foliage that is a bit more upright in form than the species, this lovely grass makes a wonderful accent in the shady garden or containers. 18-24" tall, spreads slowly.		
	qt	\$12.00

Hakonachloa macra aureola	5	pt.shade/shade
The classic Japanese forest grass with golden variegated blades that arch forth like waves. Slow to increase at first, but makes an exquisite specimen in a few years!		
	qt	\$12.00

Hakonachloa macra 'Beni Kazi'	5	pt.shade
An old green form ofm Hakone Grass that takes on colorful red tones in the fall. 18-24" tall and slowly forms large clumps 2-3' across.		
	qt	\$12.00

Setaria palmifolia		
A low outward spreading grass wth unique and lovely pleated foliage. It loves summer heat!. 18" x 24"		
	qt	\$10.00

grasses/sedges

Sorghastrum nutans "Sioux Blue"	3	sun/pt.shade
Indian Grass is extremely hardy, drought resistant, has showy inflorescence in late summer and is attractive to wildlife. It has upright foliage forming clumps 2-3' tall, with inflorescence on 5' stems.		
	qt	\$12.00

Stipa tenuissima	7	sun
Mexican Feather Grass is often grown as an annual with very fine foliage and delicate sprays of silky flowers that turn golden in late summer. 2'. Wonderful in flower arrangements, both fresh and dried.		
	qt	\$12.00

Begonia 'Art Hodes'	10	pt shade/shade
Large tropical foliage is covered by the tiniest hairs giving this Fibrous Begonia added dimension. White flowers in fall and winter. 14".		
	4"	\$10.00

Begonia 'Concorde'	10	pt. shade/shad
Dark bronze shiny leaves and myriads of white blushed with appleblossom pink blossoms all season.		
	4"	\$10.00

Begonia 'Ebony'	10	pt.shade/shade
Dark black green "angel wing" foliage undersided in crimson, 'Ebony' is associated with the cane-like Begonia group, due to the upright cane-like stalks. Clusters of jewel pink flowers are displayed in fall and winter. Pinching controls height. To 3'.		
	4"	\$10.00

Begonia kellermanii	10	sun/shade
Sprays of white blooms arise above silver-gray, felted lily pad leaves. This arid loving species from South America can take it dry and needs little pruning.		
	4"	\$12.00

Begonia 'Northern Lights'	9-10	pt.shade/shade
Deeply spiraled gold bronze leaves. Spays of white flowers in winter in early spring. 1-2'		

houseplant

Blooms Spring; Full sun to partial shade

qt.

\$10.00

Aquilegia vulgaris Christa Barlow

Christa's blue-purple flowers are perfectly edged in white. A lovely little columbine with fully doubled rows of petals. To 20" tall

qt

\$10.00

Aquilegia vulgaris 'Green Apples'

Fully double spurless creamy white flowers with apple-green tips. Hardy perennial to 32". Sometimes called 'Lemon Sherbet'.

qt.

\$10.00

perennial

Aralia cordata 'Sun King'

4

pt. shade

'Sun King' forms a 3' x 3' plant with brilliant gold compound leaves. When grown in partial shade (just a few hours of direct sun) the foliage holds its strong yellow coloring through the season. White umbels appear on 2' stems in late summer.

qt.

\$15.00

Aruncus aethusifolius 'Noble Spirits'

3

sun/ pt shade

Dwarf Goatsbeard resembles a petite fluffy white Astilbe with finely cut glossy dark green foliage. This selection is under a foot tall and would be a charming front of the border subject. Prefers well draining soil.

qt

\$12.00

Asarina procumbens

6

sun/pt shade

A delightful little creeper that is hardy for us and occasionally self sows. Tolerates a bit of shade but will perform in full sun with soft grey-green foliage and pale lemon snapdragon like flowers. 6" x 12"

4"

\$9.00

Asarum europaeum

6-9

pt sun/ shade

European ginger. A choice slowly spreading groundcover for shade with shiny round evergreen leaves. unusual chocolate and white flowers hide under the foliage in early spring. 4" x 12" ever so slowly, but plants are long lived in well drained soil.

qt.

\$14.00

Asclepias incarnata 'Ice Ballet'

4

sun/pt.shade

A nice selection of Butterfly Weed with icy white flower clusters on 40" stems in July-Aug. Does best in sun and tolerates moist or average soil.

qt.

\$12.00

Aster (x Solidago?) ptarmicoides

3

sun

The genus is still up for discussion, but this is very cheerful aster for the August garden, with cream centered white daisies on 15" stems above rosettes of clean narrow green foliage.

qt

\$12.00

Aster ageratoides 'Ezo Murasaki'

4

sun

Small deep violet blue aster blossoms with amber-yellow centers adorn this plant on 2' stems beginning in early August continuing through October and into November. Spreads by stolons.

qt.

\$12.00

perennial

Aster 'Bill's Big Blue'

....to 5' blooms Sept -Novv.

qt.

\$12.00

Aster divaricatus

5

pt.shade/shade

White Wood Aster is an often overlooked blousy addition for the fall shade garden. It tolerates dry soils very nicely and is more popular abroad than it is here in the states. (Regardless of how you voted, growing it is actually patriotic!) 15-18".

qt.

\$12.00

Aster ericoides 'Bridal Veil'

5-8

sun/pt.shade

a tough fall beauty...a floral train nearly veils the entire plant and lays claim to its name. 'Bridal Veil's stoic habit handles drought, salt spray and mildew. Blooms mid-September-early October. Size: 2' 0" high x 4-1 / 2 ' wide.

qt.

\$12.00

Aster ptarmicoides

3-8

sun

(x Soldiaster patarmicoides?) Cheerful mid-late summer aster with masses of tiny white daisies on 15" stems. Drought tolerant and easy and butterflies love it.

qt.

\$12.00

Aster tartaricus 'Jindai'

4

sun

We like this bold aster for its tobacco-like leaves and blooming papery petaled lavender flowers on 4-5' stems in Oct-Nov.

qt.

\$12.00

Asteromoea mongolica

5

sun/pt.shade

One of our favorite late summer blooming plants with double creamy white mini Chrysanthemum flowers on 24-30" plants. Spreads modestly in sun or part shade.

qt.

\$12.00

Astibe chinensis 'Visions in White'

Chinese Astilbe bloom later and are more tolerant of drier soils than most of the other Astilbe species and hybrids. 'Visions in White' sends forth chunky white plumes on 2' stems above dark teen somewhat shiny foliage in mid summer.

qt

\$12.00

Perennial

Astilbe chinensis 'Purple Candles'

4-8

sun/ pt sun

Chinese astilbe. 'Purple Candle's blooms in late June through July and is a taller selection, growing 30-40" tall. Spreads quickly into sizable 2-3' clams if grown in fertile moist soil.

qt.

\$12.00

Astilbe 'Delft Lace'

4-9

sun/pt.shade

Lacy red-bronze foliage, peachy pink flowers on 24-30" stems in early summer. Rich moist soil will keep them happy.

qt.

\$12.00

Athyrium nipponicum 'Regal Red'

3

pt.shade/shade

Painted Fern The dark violet red interior of each frond is contrasted by bright silver edges making each leaflet distinct and creating an overall tapestry effect. The pinnules also twist a little giving the frond a "fluffed" up look. 12-18" h x 18-24" w

qt.

\$14.00

Baptisia alba

4

sun/pt.shade

A slow to establish but beautiful plant with white lupine like flowers on slightly arching darkly pigmented stems. 3' in sun or pt. shade.

qt.

\$15.00

Baptisia 'Carolina 'Moonlight'

4

sun/pt shshade

A cross between B. sphaerocarpa and B. alba, forming a handsome shrubby perennial to 4' with 18" spires of creamy yellow lupine like flowers in late spring. Long lived and drought tolerant.

qt.

\$15.00

Baptisia 'Lunar Eclipse'

4-7

sun

Lavender blue to white blossoms up each flower spire. Grows 3' x4' Deer resistant.

qt.

\$15.00

Baptisia 'Purple Smoke'

4

sun/pt.shade

'Purple Smoke' is a chance hybrid of B. alba and australis, combining the smoky grey stems of the former with flowers of the latter, only now the color is a dusky purple. 3'.

qt.

\$15.00

perennial

Baptisia 'Starlite PrairieBlues'

4

sun

soft lavender-blue flowers with a glow of white near the petals' base. This sturdy plant grows -34" tall and equally as wide, blooming in late spring for us. Combine with Geranium 'Jolly Bee' and Iris siberica 'White Swirl'. PPAF

qt.

\$15.00

Begonia Grandis 'Heron's Pirouette';

6

pt.shade/shade

A Hardy Begonia with ruby tinted foliage and pendant pink-white flowers in late summer and early fall. 18-24".

qt.

\$10.00

Bergenia cordifolia 'Evening Glow'

4-9

pt.shadde

also known in German circles as 'Abendglut', bears 12-15" stems with deep rose purple colored flowers. Bergenia need good soil drainage and always seem happiest when grown on an east facing slope. Deer and rabbit resistant.

qt

\$14.00

Bergenia sp (ciliata cv?)

5-8

pt.shade

Waiting for a legit id, but our expert horticultural firend are leaning towards a cross of B. ciliata. Clusters of white flowers from emergining from red buds bloom in ealry spring. Rounded green leaves has tiny eyelash like hairs on the leaf edges.

qt

\$16.00

Boltonia asteroides 'Nally's Lime Dot'

4

sun

This plant won't grab everyone, but we like it as do flower arrangers. Sprays of lime green buttons in September on 4' plants (the petals never develop). Easy and unpredictable.

qt

\$12.00

Brunnera macrophylla

3

sun/pt.shade

Dainty azure blue forget-me-not flowers in May-June dance above large heart shaped green leaves. Prefers a rich moist yet well drained soil in part shade.

qt

\$12.00

Brunnera macrophylla 'Alexander's Gr

5-9

pt sun

Siberian Bugloss. It has GIGANTIC silver-flecked foliage in comparison to 'Jack Frost'. Dainty blue forget me not like flowers are borne in loose sprays in mid spring. Plants grow to 15" tall and 28" wide

qt

\$15.00

perennial

Brunnera macrophylla 'Diane's Gold'

4-9

pt.shade

Soft blue forget me not flowers in mid spring above gold heart shaped leaves. Cut back the flowering stems once flowering to encourage fresh foliar growth. Brunnera like a soil that is evenly moist but well drained. 15" x 2' wide.

qt

\$15.00

Calamintha nepeta ssp. Nepetoides

5

sun

A top 10 perennial! This non spreading Calamint is distinctive for its deep green somewhat glossy mint scented leaves. It blooms prolifically with tiny pale lavender-blue flowers that appear white during the summer months, but intensify in the fall. 18"

qt

\$10.00

Calamintha nepeta 'White Cloud'

5-9

sun

From sunrise to sunset, June to October, this non spreading mint relative the airy white racemes of flowers beckon beneficial insects, and create a soft hazy understory for any # of plants. Not fussy, and a great Baby's breath substitute. 18-24" high x 12"

qt

\$10.00

Campanula 'Sarastro'

4

sun/pt.shade

A hybrid of C. punctata, it resembles 'Kent Belle', with dark violet blue flowers but on shorter 18-20" stems. We were surprised to discover that it doesn't spread very much, which is good if you are not looking for a groundcover.

qt.

\$12.00

Centranthus ruber

5-8

sun

Jupiter's Beard is a well-branched, bushy, valued for its ability to produce, often in poor soils, a showy bloom of star-shaped crimson pink flowers from spring to frost. Very pollinator friendly.

qt

\$10.00

Chimonanthus praecox

Fragrant inch-long, many-petaled flowers in spring on the bare branches, the outer petals sulfur-yellow, the inner petals marked purple-brown. Deciduous shrub to 12 feet with glossy green 6" leaves. China. Zone 6. aka Wintersweet or Japanese Allspice.

qt.

\$15.00

Chrysanthemum 'October Glory'

5-9

sun

Pale Apricot Daisies in October and November.

qt.

\$10.00

Perennial

Chrysanthemum 'Sheffield'

5

sun

Apricot-pink daisies in late Sept.-Oct. are wonderful with the burgundy shades of fall foliage, as with as the late blue Aster 'Raydon's Favorite'. 2-3'

qt

\$10.00

Chrysanthemum 'Will's Wonderful'

5

sun

1" single daisies, creamy yellow to strawberry colored petals opening from a deep red bud . The petals beautifully fade to a straw color, with a thin red edge. 2-3'

qt

\$10.00

Chrysanthemum 'Bronze Elegans'

6

sun

Since autumn is the time we enjoy most in the garden, we have to grow the truly PERENNIAL mums. Coppery double 1" mum blossoms in late Sept.-Oct. Great autumn color!

qt

\$10.00

Chrysanthemum Hardy Peach Spoon

From Margie. Peachy colored spoon shaped petals, 2.5-3" flowers blooms October.

qt

\$12.00

Chrysanthemum x rubellum 'Mary Sto

5-7

sun

This girl has been around for awhile...a testimony to her hardiness. In early autumn, warm yellow daisies age to apricot tones. Plants can grow to a lanky 28", so pinch back in June for a sturdier habit and more flowering stems

qt.

\$12.00

Clematis alpina 'Stolwijk Gold'

4

sun/ pt shade

Robin's egg blue colored nodding 2" blossoms adorn 6-8' vining plants in May and June. Use against a structure that has been painted in a rich deep tone to set off the yellow foliage color.

qt.

\$20.00

Coreopsis 'Star Cluster'

4-8

sun

bearing an abundance of creamy white 1½-2½" flowers with golden centers are produced on 18-24" branched stems from early summer into early fall.

qt.

\$12.00

perennial

Corydalis ochroleuca 5 sun/pt.shade

A most impressive little plant (to 12") blooming non-stop summer through fall, with white blooms tinted light yellow. It is happy in any poor, well-drained soil and where it is happy it self-sows generously.

4" \$10.00

Crambe maritima

Blue green cabbage like leave, sprays of white flowes in late spring and early summer. Enjoys soil that is well drianed. Loves seashore conditions.

qt. \$12.00

Datisca cannabina 6-9 sun

Datisca is one of those slightly bizarre high drama perennials. Once established, 2' wide clumps of pinnate foliage give rise to 5-8' arching stems with pendant spikes of small greenish yellow flowers in mid-late summer.

qt. \$14.00

Dianthus x alwoodii 'Aqua' 5-8 SUN

Blue leaved foliage white fringed flowers in June on compact 6-" plants. Give a slighly alkaline soil with good drainage.

qt \$10.00

Dicentra spectabilis 'Gold Heart' 5 pt.shade/shade

A great choice to bring brilliant color into shady areas, this summer dormant Bleeding Heart has 2-3' arching stems bearing brilliant yelllow foliage with dangling rosy red hearts. Neutral to limy soil.

qt. \$14.00

Dicentra spectabilis 'White Gold' 5-8 shade/pt shade

Bleeding Hearts brightens the mid spring garden with brilliant golden foliage and pure white blossoms on arching stems. Plants grow to 2' tall x 3' wide, and in bloom might reach 30". Prefers evenly moist soil during the growing season, dormant in summer

qt. \$15.00

Digitalis obscura

18" tall x 12" wide. Spanish Foxglove is the best Foxglove for drier climates and poorer soils. Much better than traditional English types. It blooms in late spring with spikes of reddish-brown and yellow tubular flowers. A 2004 Plant Select winner.

qt \$12.00

perennial

Digitalis parviflora

4-9

pt sun/ sun

Chocolate foxglove. A perennial form of Digitalis, with arresting spires of copper to chocolate brown tubular glowers on 18-28" stems which appear in June and early July. It is native to Spain

qt

\$12.00

Disporopsis pernyi

6-9

shade

Evergreen Solomon's seal. 15-18" arching stems bear dangling white bells which are tinged with green offer flower interest early-mid spring. Plants spread modestly by rhizomes, forming a nice groundcover

qt.

\$15.00

Disporum flavens

4

pt shade/ shad

This graceful shade plant emerges in mid spring with nodding butter yellow bells. The display carries on for a couple of weeks, after which the foliage remains attractive and well behaved. 24" tall.

qt

\$15.00

Dryopteris crassirhizoma

5

pt.shade/shade

Thick Stemmed Wood Fern forms a handsome 3' vase shaped clump rising from a massive 4" crown. This fern remains somewhat evergreen but will collapse and simply lie flat for the winter.

qt.

\$14.00

Dryopteris x australis

5

pt.shade/shade

Dixie Wood Fern. An impressive specimen for the moist woodland, with upright semi-evergreen fronds reaching 4-5'.

qt

\$14.00

Echinacea purpurea Green Twister

24"w x 36-40"t Irresistible to butterflies, long-blooming, ultra-colorful, and carefree. The petals are held nearly straight out, not reflexed, from the bloom. Highly floriferous from mid-summer to late fall.

qt.

\$10.00

Epimedium 'Domino'

5

pt shasde

From Daryl Probst, The tight clumps of long, spiny green leaves are heavily flecked with amber. In April and May, the clumps are topped with 2' tall, hairy, burgundy, arching spikes of large white-spurred flowers tipped in wine.

qt.

\$20.00

perennial

Epimedium 'Pink Champagne'

4-9

pt.sun/shade

A Darrel Probst introduction with exquisite raspberry pink sepals and long shrimp pink spurs in abundance on 12" stems. Evergreen foliage with bronzy purple mottling. Blooms in mid spring.

qt

\$18.00

Epimedium 'Sandy Claws'

6-8

pt.shade

Spiny leaved E. wushanense selection from Darryl Probst. Glossy leaves are of heavy substance, up to 6" long and very spiny. New leaves are bronze to dark purple tinged. soft yellow flowers. 15" tall.

qt

\$20.00

Epimedium ssp nova 'Spine Tingler'

5-8

pt.shade

A Darrel Probst selection with distinctive narrow undulating spiny leaves. Pale yellow flowers and new foliage emerge at the same time. May blooming.

qt

\$25.00

Epimedium x 'Amber Queen'

5

pt.shaded

Larger Orangeamber yellow blossoms, blooms a bit later than the other Epimedium for us. 15-18" tall in bloom.

qt

\$18.00

Epimedium x versicolor 'Sulphureum'

5

pt.sh/shade

Soft yellow flowers dance on wiry stems above bronze tinted foliage. Cut back winter burned foliage in early spring before flowering stems appear. 14".

qt.

\$12.00

Euonymus kewsensis

4-8

pt.shade/shade

Winter creeper. Evergreen fine textured ground cover. Low 4-6".

4"

\$9.00

Eupatorium coelestinum 'Cory'

5-6

sun

Hardy Ageratum. Clusters of lavender-blue buttons on compact 2' plants in Sept. provide a different flower form to combine with Asters and Autumn Grasses.

qt.

\$10.00

Perennial

Euphorbia amygdaloides robbiae

6

pt.shade/shade

Grow this Euphorbia in a protected site with well drained soil in sun or shade. It will reward you with handsome evergreen daphne-like foliage and airy sprays of yellow green flowers in spring. Mulch in colder zones.

qt

\$12.00

Euphorbia 'Ascot Rainbow'

7

sun

A lovely foliage plant to add year round color in a protected spot in the garden. The linear gray green foliage is edged in creamy yellow and takes on a rosy apricot blush when temperatures are cool. This Euphorbia blooms primarily on last year's growth.

qt

\$12.00

Euphorbia 'Blackbird'

6-9

sun/ pt shade

Euphorbia 'Blackbird' with it's dark purple tinted foliage, sets off brighter hues nearby. If planted in a protected spot, or grown in mild winter areas, flowering bracts will form on the previous season's growth, providing bright contrast to itself. 18"

qt

\$12.00

Fuchsia magellanica 'Riccartoni'

7 (6B

sun pt.shade

A selection of hardy Fuchsia with a slight bronze tint to the foliage, and multitudes of tubbular red/purple flowers., beloved by hummers. Hardy only in protected spots in zones 6B. 3-4'.

4"

\$10.00

Galtonia candicans

Summer Hyacinth. Mid-late summer blooming bulb, with creamy white bells on 3-5' stems. Grow in soil with good drainage.

qt

\$12.00

Gaura lindheimeri "So White"

6

sun

We're a bit suspect of most "hardy" Gaura, but the word is that this pure white compact Gaura really behaves as a perennial. Blooming from June to frost, the white butterfly blossoms flutter on 18" stems. Sun, good drainage and poor soil keep it happy.

qt.

\$10.00

Gentiana 'True Blue'

4

sun

Offers exquisite truly blue 2" tubular flowers from August through October. The blossoms open at the nodes arranged up the 24-30" stems. Plants will form clumps 18" across and would be happiest in a well drained soil.

qt

\$15.00

Perennial

Geranium macrorrhizum 'Bevan's Vari

5

sun/pt.shade

A versatile and tough groundcover with magenta-pink flowers born above lemony scented foliage. It tolerates dry shade and tree roots. Can you think of a spot or two in your garden for it?

qt

\$10.00

Geranium phaeum 'Samobor'

5-8

sun/ pt sun

Morning widow. Noted for its dark purple markings on the leaves that match so nicely with the dusky purple flowers during the spring. Comes true from seed and can establish a loose colony where it's happy.

qt

\$14.00

Geranium 'Rozanne'

5

sun/pt.shade

Large 2" deep blue saucer shaped flowers accented white centers above mounding plants. Good heat tolerance, it always seems to be in bloom. 20" x 24".

qt

\$12.00

Geranium wlassovianum

5

sun/pt.shade

Pronounced vlass-o-vi-a-num, his very hardy late blooming cranesbill should be better known. The attractive leaves emerge a purplish-bronze and mature to a velvety dusky green. In August, 1" dusky violet flowers with white eyes appear.

qt

\$14.00

Gladiolus x 'Boone'

6

sun

Hardy Gladiolus. Pale Apricot medium sized flowers on 3-4' stems. Discovered in Boone NC (zone 6) and has wintered over in well drained soil with a protective mulch in our southern New England Garden.

qt

\$12.00

Helleborus 'Amber Gem'

Double apricot blossoms and brushed with red, booms March-May. Evergreen foliage which prefers fertile, well drained soil. Clumps can reach heights of 14" and are about 20" across at maturity.

qt

\$20.00

Helleborus 'Apricot Blush'

5-8

pt sun/ shade

Lenten rose. A seed strain, each flower may differ slightly, but all 'Apricot Blush' flowers fall in the peachy yellow to apricot range with varying degrees of rose veining, speckling, and edges.

qt

\$20.00

Perennial

Sandy Shores' opens with distinctive pale peach coloring, enhanced with deeper wine tones. 18-24" stems produce several 3" blossoms at a time, providing a showy display in late winter and early spring.		
	qt	\$20.00

Helleborus 'Sparkling Diamond'	5-8	pt.shade
Double nodding white flowers in late winter and early spring, 15" tall. Plan tin aprotected spot from winter winds anin a soil with good drainage.		
	qt	\$20.00

Helleborus 'Wedding Ruffles'	4-8	pt.shade
Double white 3" blossoms, aging to pale green. 18" x 2'.		
	qt	\$20.00

Helleborus x 'Brandywine'	5	pt.shade/shade
A lovely color blend of hellebores raised by David Culp of PA. 18"		
	qt	\$15.00

Perennial

Helleborus x 'Cherry Blossom'

4-9

pt.shade

'Cherry Blossom' has single or semi double blossoms with a distinctive cherry\_wine picotee edge and collar surrounding the central stamens. Foliage grows 12+14" tall, and forms clumps slowly up to 2' across.

qt

\$20.00

Helleborus x 'Pine Knot series

5-9

pt.shade/shade

A seedling strain from the Tyler's reknown Pine Knot Nursery. An amazing variety of color and from variations occur. Self sows! 15-18" tall and wide.

qt

\$15.00

Helleborus x 'Wedding Bells'

5-9

pt.shade/shade

Clear white double 2-2.5" flowers in late winter and early spring. Grows 18-24' tall, and clumps slowly expand to 2' or more.

qt

\$20.00

Heuchera 'Southern Comfort'

Large Amber

qt

\$12.00

Heuchera villosa 'Autumn Bride'

3

pt.sh/shade

Another Autumn Star! Fuzzy lime colored nearly evergreen foliage is accented with many stems of frothy white flowers beginning in September and continuing until frost. And it is tolerant of DRY SHADE to boot! 2'.

qt

\$12.00

Hieracium villosum

4-8

sun

ry large, bright lemon yellow daisies open on branching stems in early summer over prostrate clumps of broad, woolly, velvety, grey green leaves. 12-18" in flower

qt

\$10.00

Inula helenium

3-7

sun

Elecampane is a tall graceful member of the Asteraceae family, with fine golden petals surrounding a central disk on 3-5' stems in mid-late summer. It's specific name alludes to legnedary Helen of Troy, whose tears awoke dormant plants. Good Pollinator!

qt

\$12.00

perennial

Iris pumila 'Pastel Charm'

4

sun/pt.shade

A showy miniature bearded Iris for the mixed border or rock garden with lovely plum-purple standards and deep purple falls. Cut back after flowering to renew foliage. Prefers a poor, well drained soil in full sun. 10".

qt

\$12.00

Iris siberica 'Chartreuse Bounty'

3-8

sun/pt.shade

most unusual for its pale greenish yellow coloring. The 5" blossoms are born on 3' stems, just rising above the narrow blades of foliage. Blooms in early June for us. Deer resistant!

qt

\$12.00

Iris siberica 'Cleve Dodge'

3-8

sun

heirloom variety with deep blue violet flowers. Late spring boomer. To 30" tall.

qt

\$12.00

Jasminum officinalis 'Fiona's Sunrise'

6

sun/pt.shade

Much hardier than we thought! Deeply serrated foliage that spills and climbs, adding a sense of casual disarray to a planter or bed. Fragrant white blooms appear sporadically, but the foliage is sensational! 8-12'

qt

\$15.00

Kalimeris incisa 'Blue Star'

5-9

sun

We saw Kalimeris 'Blue Star' at Blithewold in Bristol RI, and we had to ask ourselves why we weren't growing this plant. Tolerant of heat and humidity, this long blooming Japanese Aster relative bears multitudes of single 1" pale blue daisies all summer!

qt

\$12.00

Kirengeshoma palmata

5

pt.shade

A bold foliage plant for the shade garden with light green maple shaped leaves. In late summer and early fall, creamy yellow waxy bells appear followed by curious seed pods. Best in partial shade where it will reach 3-4'.

qt

\$14.00

Lamium 'Chequers'

3-9

pt.shade

Long lived spreader for the shade garden that retains its foliage all winter, taking on plum tones. New silver variegated foliage appear in spring with lavender pink flowers. 6".

qt

\$10.00

perennial

Lamium orvala

3-9

pt.shade

Balm-leaved Archangel, native to central/eastern Europe. An easy, non-invasive woodlander with large pink flowers in late spring, and handsome fall foliage. 2' tall and wide.

qt

\$12.00

Lathyrus vernus

5-9

pt.shade

Spring Vetch. An early blooming(late April-May) perennial sweet pea with cerise pink flowers on clumping plants 8-12" tall.

Qt

\$14.00

Leucosceptrum japonicum 'Gold Angel'

4-8

pt.shade

Golden leaved Japanese Mint Shrub forms a tidy 3' x 3' mound of bright foliage all season, and then in mid autumn it is topped with yellow bottlebrush flowers.

qt

\$12.00

Leucosceptrum japonicum 'Mountain'

5-8

pt.shade

Japanese Shrub Mint forms mounds 2-3' tall and wide. This form has gold and green variegated foliage and creamy white spires in early fall. Shrubby habit, does not run.

qt

\$12.00

shrubby Japanese woodland mint that forms a 3' tall x 3' wide clump, composed of irregularly serrate, oblong leaves that emerge green, then change to silver with an irregular dark green border. 3'x 3'. Yellow flowers in Oct and Nov.

qt

\$12.00

Lewisia cotyledon 'Sunset Strain'

5

sun/pt.shade

Eye-catching waxy flowers in shades of white, deep pink, yellow or apricot on 6" stems above fleshy leaved rosettes. Needs a sharply drained soil, that is still rich. Nestle into crevices in the rock garden or use in troughs.

4"

\$10.00

Liriope muscari 'Okimo'

6-7

pt.shade/shade

A form of Mondo Grass with new foliage emerging creamy white, that is delicately tipped and tinted in deeper green as the season progresses. Lavender flower spikes in late summer. Slow growing but very unique! 6-10".

qt

\$14.00

perennial

Melissa officinalis 'All Gold'

3-8

sun/pt.shade

Golden Leaved Lemon Balm. Glowing aromatic foliage, white to pale lavender mint flowers are attractive to Honeybees. 15" tall and wide.

qt

\$10.00

Mukgenia 'Nova Flame'

3-8

sun/pt.shade

An integneric cross between Mukdenia and Bergenia, with showy foliage that takes on brilliant red tones in the fall. Dark pink flowers in early spring. 8" tall x 10" wide.

qt

\$15.00

Nepeta faessini 'Purrsian Blue'

3-8

sun

Periwinkle blue flowers in June and July on compact plants. Grows to 14" tall, and in 2 years time, can reach 2' across. This easy care Catmint makes a great front of the border plant and is tolerant of poor, drier soil.

qt

\$10.00

Nepeta x 'Joanna Reed'

5

sun

A lovely Catmint that was found in Joanna Stuart's Pennsylvania garden and named in her honor, this cross between N. siberica and N. faesseni has deep lavender flowers over a long period beginning in June and grows 2-3' tall with a 3' spread.

qt

\$10.00

Ophiopogon japonicus 'Nana'

-

Dwarf Mondo Grass resembles a tiny Liriope, forming 3-4" tall tufts of narrow green leaves. When used en masse the effect in the landscape can be charmingly geometric. This little Ophiopogon is a fun addition in troughs and miniature gardens. 4" pots.

qt

\$12.00

Persicaria a. 'Firetail'

4

sun/pt shade

Long blooming 'Firetail' (Fleece Flower) has deep red flower spikes July through September. 'Firetail' makes a large clump but is not an invasive spreader. Moist site tolerant. To 4' in bloom

QT

\$12.00

Persicaria affinis 'Donald Lownes'

5-8

sun

Short stems 6-10" with chubby peachy pink flowers almost all summer. Begins blooming in late spring and carries on until frost.

QT

\$12.00

perennial

Phlox divaricata 'Blue Moon' 4 sun/pt.shade

Noteworthy for its deeper blue coloring and showy overlapping petals which appear in late April and carry on into June. Grows 12" and spreads moderately by stolons. 'Blue Moon' emits a lovely soft fragrance.

QT \$10.00

Phlox paniculata 'Jeana' 4-8 sun

Very long blooming Garden Phlox that proved to be a magnet for butterflies in the Mt. Cuba native plant trials. Upright panicles of many small lavender pink flowers July-Sept. Height 2-4', depending on location.

qt \$12.00

Polygonatum 'Byakko' 4-8 pt.shade/shade

White Tiger. Choice form of Solomon's Seal with a green foliage that develops a white splash in the center. Reddish tinted stems. 15-18"

4" \$25.00

Polygonatum commutatum 5 shade

Tall Solomon's Seal. Tough long lived elegant plant for dry shade. Need we say more? 3'.

4" \$15.00

Polygonatum humile 5-8 shade

Dwarf Solomon's Seal. Spreads nicely as a groundcover, growing 4-6" tall. Dangling narrow white bells in spring. Tolerant if dry shade.

4" \$10.00

Polygonatum o. 'Carlisle' 4 sh/pt.sh

wide white leaf margin, selected at Blanchette's Garden.

4" \$25.00

Polygonatum odoratum variegatum 5 pt.shade/shade

This is one of the best low maintenance plants for the shade garden. Pairs of white bells dangle along arching 18" stems in May. The foliage appears to have been dipped in white paint, and brightens up the shade all season. Tolerates dry soil.

4" \$12.00

perennial

Polystichum acrostichoides

3

pt.shade/shade

Christmas Fern. This very popular evergreen fern is quite robust when grown in rich moist soil, but is tolerant of drier situations. Its dark green 2' fronds form graceful arching clumps.

QT

\$14.00

Pulmonaria 'Trevi Fountain'

4

pt.shade

Cobalt blue flowers in May above silvery spotted foliage. A stunner.

QT

\$14.00

Pycnanthemum muticum

3

sun

Silver Mountain Mint. Attractive silver grey foliage, fragrant pale purple flowers in mid-summer on 30" stems. So what if it spreads where happy--take advantage of it's exuberance and grow as a groundcover on a sunny bank.

QT

\$10.00

Rudbeckia laciniata 'Autumn Sun'

5

sun/pt.shade

From German hybridizers (a.k.a. R. 'Herbstonne'), this American native yellow coneflower is spectacular from late July-Sept. Prominent green cones accent the yellow petals. 5-7', depending on available moisture.

QT

\$12.00

Ruta graveolens 'Blue Beauty'

6

sun

Rue. Out of the herb garden comes this lovely blue foliage plant. 2' bushes are neat and tidy and do well in sunny well drained spots. (Be sure to wear gloves when handling this plant if you have sensitive skin.)

QT

\$10.00

Salvia azurea grandiflora

6

sun

Hardy in zone 6 in well drained soil, this late summer blooming sage offers sky blue flowers held loosely on 3' stems. Pinch back early for a more dense habit.

qt

\$12.00

Salvia koyame

5-8

pt.shade

yellow flowered woodland Sage bears 18-24" spires of two-lipped yellow flowers above somewhat hairy arrowhead shaped foliage

qt

\$12.00

perennial

Sanguisorba menziesii 'Dali Marble' 3-7 sun/pt. shade

White edged blue green foliage form 2' clumps, with 4' stems in mid summer tipped with burgundy bottlebrush flowers in mid summer. Happiest in a moist soil.

qt \$12.00

Sanguisorba minor 'Little Angel' 4-9 sun/pt.shade

Vareigated Salad Burnet. Dainty white edged lacy foliage forms a mat with deep maroon elongated button flowers on 18-24" stems in mid-late summer. Likes a soil with a bit or moisture. Edible leaves have a nutty cucumber flavor.

qt \$12.00

Saxifraga stolonifera 'Maroon Beauty' 6-9 pt.shade/shade

Commonly called Strawberry Begonia, 'Maroon Beauty' has wispy white flowers blushed with purple on sturdy 12" stems, burgundy wine markings on it's rounded foliage. Stoloniferous and tolerates dry shade

4" \$10.00

Sedum 'Abbeydore' 3 sun

A lovely compact form of Sedum with beautiful rosy pink flowers blooming in late summer, over medium green, succulent foliage. Grows 16" tall

qt \$10.00

Sedum album 'Athoum' 4-11 sun

Tough little creeping evergreen Sedum with olive green jelly bean leaves cloak trailing stems, occasionally terminating with clusters of starry white flowers. A rosy tint colors the leaves in summer heat. Less than 2" tall.

4" \$9.00

Sedum album 'Chloroticum' 4 sun

Pale green tiny succulent foliage with small white flowers. Useful in troughs, crevices. 2" x 6"

4" \$9.00

Sedum album 'Coral Carpet' 6 sun

Textural foliage is coral red in cool temperatures, turning green in summer. White flowers. Makes a good evergreen, drought tolerant groundcover.

4" \$9.00

perennial

Sedum 'Angelina'

3

sun/pt.shade

A trailing sedum for sun or shade with glowing yellow needle foliage. A fabulous color and texture, especially for dry situations. 3-6" tall, spreading habit.

4"

\$9.00

Sedum Plum Perfection'

4-9

sun

Plum Perfection' is a mounding, dome-shaped, hybrid that typically grows to 8-10" tall with a spread of 12-16" wide. It is noted for having gray-green to plum foliage, bicolor pink flowers and larger height than one of its parents *S.tatarinowii*, (5").

qt

\$12.00

Sedum spurium 'Fuldaglut'

4-10

sun

Dark red foliage holds well all summer. Creeping habit with clusters of starry pink flowers in early summer.

4"

\$9.00

Sedum spurium 'John Creech'

4-10

sun

A choice and quite vigorous selection of *Sedum spurium*, with small scalloped green leaves forming a dense groundcover and adorned with pink flowers in fall.

4"

\$9.00

Sedum ternatum

4

sun/pt.shade

Dark grey-green foliage and white flowers in May-June, with a low (4") spreading habit. A good choice for dry shade and rocky crevices.

4"

\$9.00

Silphium perfoliatum

5-9

sun

Cup Plant. Leaves clasp the stems, holding water, thus the name. Tall late season perennial with branches of yellow daisies on 5-7'+ stalks. A favorite of goldfinch.

qt

\$12.00

Stachys monieri 'Hummelo'

4-8

sun

Lavender purple 18" spires are produced above fresh green crinkly foliage for a long time beginning in midsummer. All it asks for is sun and good drainage. Deer and rabbit resistant!

qt

\$12.00

perennial

Stokesia 'Peachies Pick'

5-9

sun

Blue-Lavender many petaled summer blooming Aster relative. Grows 12-18".

qt

\$12.00

Stylophorum diphyllum

4-8

pt.shade

cheerful Missouri native ushers in mid-late spring with 4 petaled golden yellow poppies. Happiest in a moist shady spot, it is famous for self sowing, and can thus develop into nice ground covering colonies. Grows 12-18" tall and 12" wide.

qt

\$10.00

Symphotrichum laevis 'Bluebird'

4

sun

This is it--a medium-tall Aster that doesn't need staking with clean (mildew-free) foliage and lavender-blue flowers late Aug.-Oct. Tolerant of dry or moist soils. Sun.

qt

\$12.00

Symphotrichum 'Mary's White'

5

sun

Choice white Aster from Beth Chatto's garden, and named for her daughter Mary.

qt

\$12.00

Symphotrichum oblongifolius 'Octobe

5

sun

We have a special quality of autumn light in New England. In fact, the blue sky in October is at its deepest. Now we have an aster that reflects this color in 'October Skies'. 18" x 18", blooms Sept-Oct. and is tolerant of poor dry soil.

qt

\$12.00

Symphotrichum oblongifolius 'Raydo

4

sun

An extremely long and late blooming aster for us, with medium blue flowers from October into November. Furthermore it is unscathed by drought or excess rain. 3' x 3'.

qt

\$12.00

Symphotrichum 'Vasterival'

5

sun

A lovely Sept-Oct blooming Aster with 1" lavender-pink blossoms on dark wine colored stems. Can reach heights of 4-5' but we pinch back in early July to keep plants at around 3'. Spreads!

qt

\$12.00

perennial

Symphotrichum x 'Bill's Big Blue'

4-9

sun

An aster selection by CA grower Ed Carmen, boasting beautiful late season violet blue daisies on plants that reach 4-5' tall, ending the show in early November. Popular with bees and butterflies!

qt

\$12.00

Syneilesis aconitifolia

pt.shade

Shredded Umbrella plant. This woodland Ligularia relative, native to dry hillsides, emerges in early spring as the white wooly leaves push through the ground like mayapples. Exquisite foliage all summer. Grows to 18".

qt

\$14.00

Teucrium chamaedrys 'Summer Sunshi

4

sun/pt shade

A nice low, spreading Germander with chartreuse to yellow scalloped foliage. Short spikes of pink to lavender flowers appear in late summer for 3-4 weeks. A great plant for rock gardens or the front of the border. 6-8" x 12-15" wide.

qt

\$12.00

Thalictrum 'Nimbus Pink'

5-9

sun/pt.shade

A compact floriferous Thalictrum aquilegifolium hybrid with fluggy pink flowers on 24-30" dark tinted stems in late spring, early summer. Enjoys an evenly moist soil.

qt

\$14.00

Thalictrum rochebrunianum

5

sun/pt.shade

'Lavender Mist' as this variety is popularly known, is a tall back of the border plant with airy spays of lavender flowers in July-Aug. We use it as a backdrop for Oriental Lilies. Hardier than T. delavayi.

qt

\$12.00

Thalictrum 'Yulia'

5-9

sun/pt.shade

A compact form of Meadowrue, with 2-3' stems bearing clouds of lavender flowers in June and July.

qt

\$14.00

Thymus 'Elfin'

5

sun

Mini creeping thyme. Give good drainage. Useful in between stepping stones.

4"

\$8.00

perennial

Tricyrtus formosana 'Autumn Glow' 5-8 pt.shade/shade

Bolder leaves with wider gold variegation, dainty indigo-blue to violet spotted flowers in Aug & Sept. Grows 2-3' tall and wide.

qt \$12.00

Valeriana officinalis 4-7 sun

Garden Heliotrope. A summer bloomer with corymbs of small white flowers on tall stems, attractive to all types of pollinators. Many medicinal uses. Use as a wild garden plant. Can self sow, so watch for seedlings. Grows 3-5' tall.

qt \$9.00

Veronicastrum virginicum 'Fascination' 4-8 sun

Mid to late summer blooming, Culver's Root provides endless candelabras of lilac rose spires to compliment Coneflowers and Border Phlox in the dog days of July and August. Grows to 5' tall.

qt \$14.00

Waldsteinia fragarioides 4-8 sun/shade

Barren Strawberry. A very useful ground cover for sun or shade, with cheery yellow flowers throughout the spring. Grows 8-10", forming a dense carpet in a wide range of soils and is salt tolerant to some degree.

qt \$10.00

Yucca filamentosa 'Color Guard' 4 sun

A superior variegated clone of Yucca, with creamy yellow centered sword-shaped leaves edged in deep green. The winter color becomes even more exciting as the creamy yellow takes on coral hues. Drought tolerant and evergreen. 2-3'.

qt \$12.00

Acanthorhopsalis monacantha 10 pt.shade

An epiphytic cactus, native to Bolivia, has flattened & 3-angled waxy green leaves/stems that become pendant shaped with age. In spring, Acanthorhopsalis monacantha will produce small golden orange flowers

4" \$9.00

Aeonium 'Blushing Beauty' 9-11 sun

Beautiful rosettes of soft olive green leaves tinged with amber bronze on sturdy branched stems, growing 1' to 2' tall.

4" \$12.00

succulent

Aeonium 'Kiwi'

10

sun/ pt shade

Rosettes of tricolor green, cream, and pink red spatulate leaves radiate on sturdy stalks.

4"

\$9.00

Aeonium 'Lily Pad'

10

sun/pt. shade

Large flat rosettes of green foliage...resembling waterlily foliage. Keep foliage dry with a top dressing of gravel. Can take bright shade.

4"

\$9.00

Aeonium 'Mardi Gras'

10

Tricolor foliage...rose-red/cream/green...intensity of color changes with cooler temperatures. Grows to 12". Pinch back for a bushy habit.

4"

\$12.00

Aeonium 'Plum Purdy'

10

sun

Great new Sun Rose! Large flat rosettes of plum bronze foliage. Forms tight shrubby clumps. 2-3' tall with age.

4"

\$12.00

Aeonium x 'Cyclops'

10

sun

Striking tall hybrid ofg Aeonium 'Zawrtkop' and undulatum with cupped rosettes of dark bronze/black/red leaves with green "eye". Can grow to 4' tall and freely offsets. Cut back for stockyier plants.

4"

\$12.00

Agave americana 'Medio Picta Alba'

9

sun

A choice Agave with a broad white stripe down the center of each leaf. Considered Medium sized it can grow to 3-4 ' high & wide. Full sun

4"

\$15.00

Agave americana var. marginata

9-

sun

This imposing specimen plant has undulating spine tipped grey-green leaves edged in creamy yellow. If confined to a pot it will at most reach 3', but in the open ground it may grow to 4-5' .

4"

\$12.00

succulent

Aloe 'Blizzard'

10

sun/pt.shade

pale green leaves with white markings distinguish this small slow growing Aloe hybrid. Forms nice offsets. 4-6"

4"

\$12.00

Aloe 'Blue Elf'

10

sun

Tight growing dwarf Aloe with very blue narrow foliage. Coral orange flowers in winter. Grows 18' tall x 2' wide.

4"

\$10.00

Aloe 'Christmas Sleigh'

10

sun/pt.shade

rare and slow growing miniature Aloe, growing to 6' 12" wiry 12" stems bearing coral red flowers in winter.

4"

\$12.00

Aloe ciliaris

10

sun

Climbing Aloe. Fast growing succulent vine with a swollen basal caudex from which emerge many long semi-woody stems. 6-12 inch long inflorescences rise vertically from near the tips of the branches. The coral red tubes are hummingbird magnets.

4"

\$9.00

Aloe 'Silver Hybrid'

10

sun

Silvery green leaves marked irregularly with darker green.

4"

\$9.00

Aloe x 'Black Gem'

10

From Solana Succulents. Small dark leaved Aloe/ Haworthia/Aloe bigeneric hybrid. Darkest leaves in cool temps and when soil is dry. 6-7".

4"

\$12.00

Aloe x 'Coral Fire'

10

sun/pt.shade

Slow growing clumps of sage green leaves with coral pink raised markings. Foliage stays under 6". Coral orange tubular flowers on 18" stems in winter,

4"

\$12.00

succulent

Aloe x 'Delta Dawn'

10

sun/pt.shade

Dark green leaves with white dashed markings and coral colored teeth. Orange flower son 1-2' stems in winter

4"

\$12.00

Aloe x 'Oik'

10

sun/pt.shade

A Karen Zimmerman Hybrid of A. divaricata with medium green leaves with raised coral pink ridges and teeth.

4"

\$12.00

Aloe x 'Snowstorm'

10

sun/pt.shade

Small chunky sage colored leaves flecked throughout with white. Free flowering and freely produces offsets.

4"

\$12.00

Aloe zanzibarica

This miniature Aloe forms tight rosettes of short bright green succulent leaves dappled with cream and edged translucent white teeth, that grow in a somewhat columnar way. Red-orange flowers in early spring .EASY!

4"

\$9.00

aloe/gasteria/haworthia crosses

Unknown selections from Solana Succulents

Anacampseros lubbersii
